

STUDENT MOBILITY REOPENING CALL FOR PROPOSALS ACADEMIC YEAR 2023-2024

GENERAL INFORMATION

This call for proposals is based on Regulation (EU) 2021/817 of the European Parliament and of the Council establishing Erasmus+: the Union Programme for education and training, youth and sport. It focuses on three Key Actions (KA), namely learning mobility (KA1), cooperation among organisations and institutions (KA2) and support to policy development and cooperation (KA3).¹

Under Key Action 1, the Programme shall support the learning mobility of higher education students from all fields of study and study cycles. The aim of this action is to contribute to the creation of a European Educational Area and to foster the integration of education and research to promote critical thinking.

Key Action 1 (KA1) – Learning Mobility

This call for proposals promotes Student Mobility for Studies, providing opportunities for studying (from 2 to 12 months) at a higher education institution in one of the following eligible countries.

Member States of the European Union (EU)

Belgium, Bulgaria, Czech Republic, Denmark, Germany, Estonia, Ireland, Greece, Spain, France, Croatia, Italy, Cyprus, Latvia, Lithuania, Luxembourg, Hungary, Malta, Netherlands, Austria, Poland, Portugal, Romania, Slovenia, Slovakia, Finland, Sweden

Members of the European Free Trade Association (EFTA) that are members of the European Economic Area (EEA) Norway, Iceland, Liechtenstein

Acceding countries, candidate countries and potential candidates

Republic of North Macedonia, Republic of Turkey and Republic of Serbia

Third countries not associated to the Programme

Switzerland, United Kingdom

The Programme shall be open to the participation of the above-mentioned countries ensuring students can take classes, use university facilities, carry out research for thesis preparation and validate credits on their return to the sending institution as stated in the Learning Agreement.

All grant beneficiaries have the 'status' of Erasmus+ student – they are exempted from paying fees for tuition² at the host institution, are allowed to use all services provided by the Partner University on equal terms with local students and to obtain full recognition of academic activities completed abroad.

The present call for proposals is published, despite the ongoing health emergency, in order to allow students to optimistically look ahead and plan their educational activities for the next academic year.

² Normally, the host institution is not allowed to charge ERASMUS students for tuition fees (in particular, fees for class attendance, enrolment, exams, lab and/or library access fees). However, the host institution may require a small fee to cover insurance costs, membership of student unions, reduced transportation costs, or the use of other equipment (photocopies, lab supplies, etc.) applying the same rates as local students.

Students embarking on their mobility abroad must submit a waiver confirming they have assessed all the conditions in the destination country.

Art. 1 – Eligibility Criteria

Erasmus+ *Student Mobility for Studies* Call for Proposals **2023** is now re-open. All **students who are enrolling in undergraduate and graduate degree courses during 2023-2024 academic year** are eligible for a grant in accordance with existing bilateral cooperation between the University of Macerata and eligible European Universities.

Doctoral students <u>must enrol in 2023-2024 academic year</u> and send a copy of the payment to the International Mobility Office <u>before</u> the beginning of their mobility, which must be completed within the period of the academic year of enrolment (01/11/2023 - 31/10/2024).

The partner universities and the number of students' scholarships are listed in the *List of Agreements Document* available at http://iro.unimc.it/it/studenti/studenti-in-partenza/erasmus/erasmus.studio.

For Erasmus+ Programme, **students may carry out either one or a combination of study period and traineeship** activities. The same student can spend up to 12 months maximum per each cycle of study, independently of the number and type of mobility activities. In one-cycle study programmes, students can be mobile for up to 24 months.

Students are eligible for one mobility per academic year.

It is therefore possible to carry out one or more Erasmus+ mobility activities (study period and/or Traineeship) up to a maximum of

- **12 months in the first cycle** (Bachelor or equivalent)
- **12 months in the second cycle** (Master or equivalent)
- 24 months in one-cycle degrees
- 12 months in the third or doctoral cycle

NOTA BENE: The maximum months' criterion for mobility activities pertains to the <u>status of Erasmus student and not the months</u> <u>covered through the grant</u>. Therefore, the maximum months of Mobility for Studies also includes those without grants.

Any periods of Erasmus+ mobility carried out in virtual mode from the country of habitual residence will not be considered in determining the maximum number of months of Erasmus mobility per study cycle.

By applying to the Erasmus+ for Studies call a.y. 2023-2024, students declare to have many available months congruent with the rule mentioned above.

It is the responsibility of each student to verify the number of Erasmus months still available for the relevant cycle of studies when applying for this call. In case of false declaration, the mobility may be cancelled with the return of the financial contribution provided. In this regard, it is recalled the criminal liability for false statements under the Penal Code and special laws on the subject in Italy (art. 76 of Presidential Decree no. 445/2000).

Students and/or near graduates of **one-cycle study programme** are entitled to **up to 24 months** of Erasmus+ mobility activities (for Studies and/or Traineeships). 12 additional months may be added if they subsequently enrol in third cycle study programme.

This criterion allows students participating in the Erasmus+ Programme to receive a number of mobility grants for studies or traineeships in various European countries as they progress through degree cycles.

Students shall decide whether to carry out a physical mobility if conditions permit, or a blended mobility only if combined with a physical mobility of at least 2 months. The blended mobility shall be planned at the beginning of the mobility and stipulated in the Learning Agreement, upon prior written agreement with the Partner institution.

The University of Macerata fosters gender equality and allows all students who meet the following **eligibility criteria** by the deadline of the call to participate in the Erasmus+ for Studies Programme:

T. (+39) 0733 258 - 6040 - 6042 T. (+39) 0733 258 - 6044 - 6067 T. (+39) 0733 258 - 6041 - 6039

- At the time of applying, students <u>must be properly enrolled in the 2022-2023 academic year. For the 2023-2024 academic year,</u> applicants must enrol in a regular course of study at the University of Macerata leading to exams registration and a recognised degree as follows.
 - a. for the a.y. 2023-2024, students of Bachelor or one-cycle degrees (i.e., Law) shall enrol also in the first year
 - b. for the a.y. 2023-2024, students of master's degrees shall enrol also in the first year
 - c. for the a.y. 2023-2024, Doctoral candidates shall enrol at least in the second year

It is the responsibility of all students to enrol in the 2023-2024 academic year before departure.

- Students must comply with the conditions relating to the Erasmus student *status*: they can be mobile for up to 12 months maximum per each study cycle (Bachelor, Master, Doctoral) and up to 24 months for one-cycle programmes (Law and Education), independently of the number and type of mobility activities.
- Students must carry out their mobility activity in any Programme Country or Partner Country different from the <u>country of the</u> sending organisation and the <u>student's country of residence</u>.

<u>MOBILITY TOWARDS STUDENT'S COUNTRY OF RESIDENCE</u>: mobility for studies is not permitted at Italian universities or universities in the student's country of residence if the applicant is not an Italian resident.

NOTA BENE: For mobilities in **Non-EU Programme Countries**, it is a responsibility of all the applicants to gather information regarding visa and residence permits. Applicants who are not EU citizens or EU citizens of countries that are not part of the Schengen zone are advised to consult the EU Immigration Portal and the Diplomatic Missions of their home country located in the receiving country.

Outgoing students must have an adequate knowledge of one of the two languages of the destination country³.

NOTA BENE: Students who do not reach the **language level** requested by the receiving institution and specified in the *List of Agreements Document*, will not be eligible and therefore will not be listed in the ranking.

In no circumstances shall applicants do benefit in the same period from any other EU funding received for any other project. It is a responsibility of the Erasmus grant beneficiary to ensure that identical items of expenditure are funded by a single source in order to avoid the risk of double-funding related to other EU projects, such as 'Horizon2020' or former 'Erasmus Mundus programme'.

Art. 2 – Application Procedure

Applicants are required to submit their application online to the International Mobility Office by filling out the form available from the student's private area (web page <u>https://studenti.unimc.it</u>, drop-down menu "Mobilità Internazionale – Outgoing", section "Bandi di mobilità"). Applications will be assessed against the following criteria:

- 1. Priority is given to students who have never benefited from an Erasmus+ grant;
- The order of preference of the European Partners selected by the student; 2.
- 3. The mobility activity has to be compatible with the student's degree-related learning;
- 4. Academic merit and language proficiency: a maximum of 100 points for this criterion; 4.1. Academic Merit: a maximum of 40 points for this criterion awarded as follows:

4.2. <u>Language assessment</u>: the evaluation of language competences will generate a score of up to **60 points**. Knowledge of one of the **four main Community languages** (French, English, Spanish, and German) is assessed depending on the Partner University selected by the student; **the first and second language** indicated in the *List of Agreements Document* are also taken into consideration⁵.

Starting from 2014, the Erasmus+ Programme has given more relevance to the language proficiency by introducing corresponding information in the Erasmus bilateral agreements of partner universities. As a result, the language assessment – which was only used in the processing of the ranking list – has become an important criterion without which Partner Universities may not accept the students.

NOTA BENE: Students who do not have the **language level** requested by the Partner University and indicated in the *List of Agreements Document*, **will not be eligible for the university** they have chosen and will therefore not included in the ranking list.

Language levels may be demonstrated through an **international language certification** from a certifying body recognised by the Italian Ministry of University and Research (MUR) issued no later than 3 years before university enrolment. The level must be equal to or higher than the one requested by the Partner University. If students do not possess a certification, they must take a **proficiency test** arranged by the International Mobility Office.

⁵ In the case where the first and second language are the same, the student has to take only one test.

Students who have an **international language certificate** issued by a certifying body recognised by the MUR and **wish to be exempt from taking the language test envisaged by this call for proposals** must follow the procedures indicated on page http://cla.unimc.it/it/servizi/riconoscimento-certificazioni-bando-erasmus-studio-2023-2024-RT in order to have their certificate verified by the University Language Centre (CLA) no later than 04/09/2023 (dd/mm/yyyy format).

Students who do not have a language certificate or whose language level is lower than the one requested by the Partner University **must take** a **language assessment test**, which will take place **from 11 to 15 September 2023** at **Polo Pantaleoni** ("Maffeo Pantaleoni" Building / Entrance on Armaroli Street). To find out the specific date and time of the test, please consult the following web page <u>http://iro.unimc.it/it/studenti/studenti-in-partenza/erasmus/erasmus.studio</u> (menu "Erasmus+ Studio a.a. 2023/2024", section "TEST"). This information will be available <u>beginning on Thursday, 07 September.</u>

At the student's request, the results of the language tests carried out as part of the Erasmus+ Mobility for Studies Call for proposals ending 23/02/2023 (dd/mm/yyyy format) may be considered.

Please note that Partner Universities are entitled to arrange further language assessment tests in accordance with their own institutional regulations. In case of different assessments, Partner Universities have the right to decline the student's application. Therefore, it is a responsibility of the students to consult the International Mobility Office webpage and Partner Universities' websites to gather further information, to check the requested language levels and the assessment procedures before submitting their applications.

(starting from the 2015-2016 academic year) for the "Erasmus Buddy" programme promoted by the International Mobility Office will be entitled to five extra points - one point for each positive opinion obtained by the student they helped. The International Mobility Office will verify this information.

- 7. In case of a further tie, priority will be given to the youngest candidate.

The ranking list is to be approved by the Rector. It would possibly be published by 21 September 2023 at http://iro.unimc.it/it/studenti/studenti-in-partenza/erasmus/erasmus.studio (menu "Erasmus+ Studio a.a. 2023/2024", section "GRADUATORIA"). It represents an official communication to candidates.

The selection of candidates will not guarantee the possibility of departure in the event of intervention by the Italian government and the foreign governments impeding the movement of persons or the stay in their territories for prevention purposes.

Art. 4 – Grant Amount

The mobility grant is provided as follows.

- A grant awarded by the National Erasmus+ INDIRE Agency. The amount of the grant varies according to the country in which a. the mobility takes place:
 - Group 1 (high cost of living): Denmark, Finland, Iceland, Ireland, Luxembourg, Sweden, Lichtenstein, Norway, United Kingdom, Switzerland. The grant amount for a mobility to countries in Group 1 is € 350.00 per month;
 - Group 2 (medium cost of living): Austria, Belgium, Germany, France, Italy, Greece, Spain, Cyprus, Netherlands, Malta, Portugal. The grant amount for a mobility to countries in Group 2 is € 300.00 per month;
 - Group 3 (low cost of living): Bulgaria, Croatia, Czech Republic, Estonia, Latvia, Lithuania, Hungary, Poland, Romania, Republic of Serbia, Slovakia, Slovenia, Republic of North Macedonia, Republic of Turkey. The grant amount for mobility to countries in Group 3 is € 250.00 per month.

To benefit from the European funding, students must have spent at least two months at the partner institution and have to have attended at least one teaching activity duly certified by the partner institution. Doctoral students can choose between a standard mobility (from 2 to 12 months) and a short mobility from 5 to 30 days.

Students who are not in compliance with the conditions provided will forfeit the grant and refund all money received. The financial contribution may not cover the entire cost of the study period abroad but is intended to partially offset the higher costs of study mobility.

The University of Macerata cannot transfer the financial contributions to beneficiaries until the National Erasmus+ INDIRE Agency has accredited the Erasmus+ funds to the University.

The grants are transferred to beneficiaries in two instalments: 80% within 30 days of the date when the mobility starts and the balance after completion of the individual questionnaire on the study period abroad (after return from mobility).

The Erasmus+ 2021/2027 Programme aims to promote Green Transport, i.e. modes of travel with a low level of CO2 emissions (such as train, car sharing, bus) in order to make international mobility more inclusive and sustainable. Action 1 of the Erasmus+

2021/2027 program envisages two different types of contribution to support travel expenses incurred for the purposes of Erasmus+ mobility.

The green travel contribution is intended for the beneficiaries of Erasmus Studio mobility a.y. 2023/2024 who undertake a green travel (with reference to both the outward and return journey) to reach their destination. It is provided for distances up to 4,000 km and consists of a one-time travel contribution of \in 50.00 and a daily allowance corresponding to the daily amount of the monthly grant. The daily allowance will be paid for each day of green travel (both outward and return) necessary to reach the destination for a maximum of 4 days.

The contribution for the green travel will be awarded upon verification of the travel documents after the completion of the Erasmus mobility.

NOTA BENE: <u>Doctoral candidates who have been awarded a scholarships</u> must choose between the Erasmus+ grant and the additional Doctoral scholarship for their time abroad. In no case can they be beneficiaries of both types of funding, as the grant and the scholarship are not cumulative.

NOTA BENE: Successful candidates on special leave with pay for educational purposes are required to ask their employer for a written statement regarding the compatibility of their salary with the mobility grant. This statement must be submitted to the International Mobility Office before signing the mobility contract.

b. <u>A contribution from the University</u>⁶, which can be transferred to beneficiaries as of 10 November 2024 subject to verification of financial availability and the actual achievement of minimum credits (see table approved by the Academic Senate on 22 November 2011). The contribution varies based on the contribution bracket of the candidate as established through the application for tuition fee reduction for the 2023-2024 academic year as indicated in the following tables.

NOTA BENE: For students awarded an *ERDIS* (*Regional Body for the Right to Education*) scholarship during the 2023-2024 academic year, the monthly contribution is € 100.00.

Beneficiary students will be informed by e-mail of the bracket they fall into.

- c. <u>A possible additional contribution financed by the MUR for students in disadvantaged economic situations.</u> This contribution will be taken from the funds assigned to universities by MUR as per ministerial decree no. 198/2003. Once the funds have been allocated, the transfer of the payment is **subject to the following requirements.**
 - Being enrolled within the normal length of the course of study increased by one year (no more than one year out of course from the 2023-2024 academic year)
 - Having obtained (and therefore recognized in the student's career) at least one foreign credit.

The contribution is **proportional to the documented length of the mobility**. It is based on the *ISEEU* value resulting from the documentation submitted to the Student Administration Office at the time of payment of tuition fees for the **academic year 2023-2024** taking into account the contribution brackets listed in **Table 1** and will be in accordance with the provisions of the MUR for the definition of the maximum limits of *ISEEU*. In any case, a minimum amount of \leq 250.00 shall be granted to students in the first bracket. For students in the following brackets, the contribution shall be paid based on the availability of funds.

This contribution is transferred to beneficiaries in two instalments: 50% within 30 days from the date of the start of mobility and the balance after the validation of the exams taken abroad. For students departing on the first semester, the first instalment is calculated on the *ISEEU* certificate submitted for the 2022-2023 academic year. The International Mobility Office will make the necessary adjustments where there will be a difference between the *ISEEU* certificates for the academic year 2022-2023 and 2023-2024. The second instalment is allocated in November 2024.

d. <u>Erasmus+ special needs support grant.</u> These contributions are allocated by the European Commission for individuals with physical, mental or health-related conditions. Therefore, it is possible to apply to the Erasmus+ National Agency INDIRE for an ad hoc support to cover the higher expenses strictly related to specific needs. For further information, please contact the International Mobility Office⁸.

The financial contribution of the Erasmus mobilities is subject to the allocation of funds by the National Agency Erasmus+ INDIRE. Should the funding not be available in whole or in part, successful candidates can still carry out the mobility benefiting from the status of Erasmus student, but independently supporting the expenses.

Art. 5 – Administrative Requirements

Accept / Decline

Students awarded a grant **must inform the International Mobility Office of whether they accept or decline** the grant within **10 days** of the date when the ranking list is published. Failure to do so will result in the forfeiture of the grant. This deadline is valid unless the Partner University requests the names of successful candidates before the deadline. Applicants must communicate their decision by filling in the form available from the studen's private area (web page <u>https://studenti.unimc.it</u>, drop-down menu "Mobilità")

Students who do not communicate their decision by the above-mentioned terms, will be considered to have **declined** the grant. They will therefore not be eligible to participate in any re-opening of terms of this call, or in the call for proposals for the following academic year.

⁸ At the moment, the National Agency for Italy has not made available the terms and ways of accessing these funds, which are disbursed to the beneficiaries through the University. It is therefore recommended that students make their needs known to the International Mobility Office when they submit the application for this call.

Art. 6 – Academic Requirements

Students shall get information about the study period abroad directly from the contact person of the Erasmus+ agreement, the Erasmus Delegate of the University of Macerata and/or from the websites of the Partner Universities. This prevents students from being unable to take advantage of the study period abroad due to incorrect information on the training offer or failure to meet the deadlines for pre-enrolment (application form).

The International Mobility Office is unable to provide any information on this matter.

<u>Before departing</u>, students must draw up the Learning Agreement – including the list of courses to be attended abroad and the respective syllabuses, and the list of corresponding courses provided by the University of Macerata. The Learning Agreement must be consistent with the student's course of study.

Students must also check with their departmental Erasmus Delegate whether they may carry out an internship in addition to their study activities, and inform the International Mobility Office **before draw up the mobility contract**.

The student, the departmental Erasmus Delegate and a Partner University Coordinator must sign the Learning Agreement. Any change to the Learning Agreement necessary after the student's arrival at the Partner University must be implemented within one month of arrival at the receiving institution. Any further change to the Learning Agreement must be formally agreed by the student with the departmental Erasmus Delegate and with a Coordinator from the Partner University.

During their study periods abroad, students can:

- 1. Take exams
- Prepare their thesis according to the research project approved by the Thesis Supervisor beyond the minimum of 2 months or 1 academic term of study activity specified on the Learning Agreement before departure¹²;
- 3. **Carry out a Traineeship** beyond the minimum of 2 months or 1 academic term of study activity specified on the Learning Agreement before departure, and provided that it is an integral part of the Learning Agreement. It is a responsibility of the student to ascertain that the Traineeship is documented in the final Transcript of Records issued by the Partner University.

Please note that the <u>validation of exams relating to previous academic years available on the International Mobility Office's website</u> <u>are merely intended to guide students in identifying the most compatible courses</u>, since both the University of Macerata's and the Partner Universities' academic programmes are subject to change.

Exams taken during Erasmus mobility must be validated by **15 November 2024**.

Exams taken abroad are registered in the on-line booklet by the departmental Student Administration Office with the **date on which** credits are validated, namely at the end of the entire Erasmus+ mobility. Students' beneficiaries from additional contributions (e.g., ERDIS, University of Macerata, etc.) are required to find out in advance about any dates by which their exams must be registered.

<u>Upon arrival at the Partner University</u>, students must report to the International Mobility Office or the Erasmus Office of the Partner University for their registration and send a document certifying the start date of their mobility to the International Mobility Office of the University of Macerata – even a fax document is accepted.

Students interested in extending their period abroad must submit a request for extension to the International Mobility Office according to the deadlines and procedures set out in the on-line form available at http://iro.unimc.it/it/studenti/studenti-in-partenza/erasmus.studio (menu "Erasmus+ Studio a.a. 2023-2024", section "STEP BY STEP").

NOTA BENE: the rule of months (see Art. 1 of this Call) pertains to the <u>status of being an Erasmus student and not the months</u> <u>covered by the grant</u>. Therefore, the total months of Mobility for Studies also includes those "without a grant".

¹² Before departure, students must produce a research project containing a proposal for CFUs for thesis research abroad. The project must be approved by the Thesis Supervisor and then obtain a favorable opinion from the study course Council. At the end of the period abroad, the Supervisor must ascertain that the research activity carried out abroad complies with the approved research project. Any deviations must be submitted to the study course Council. The research and thesis preparation carried out abroad allows the student to obtain between 50% and 80% of the credits foreseen for the thesis dissertation to be recorded in the student's career as foreign CFUs for thesis research abroad.

Art. 7 – Safeguard Provisions

The disbursement of European grants is subject to the National Erasmus+ INDIRE Office financing students' mobility for studies within the limits of the total months allowed by the Office and to the subsequent acceptance of each Erasmus student by the Partner institution.

¹³ The total amount of grants is defined according to the actual period spent abroad – from the start date to the end date – as documented by the relevant certificate. Students staying abroad for less than the number of months stipulated in the mobility contract must reimburse any monies received in proportion to the number of months not actually spent abroad.
